

HEDIS[®] Telehealth Accepted Codes

Telehealth has been around for many years and has shown to be a cost-effective, evidenced-based alternative for delivering care. These services are becoming widely reimbursable by payers such as health plans, states and CMS. NCQA is now accepting telehealth services for HEDIS.

The modifiers 95 and GT are defined as telehealth services rendered via interactive audio and video telecommunications system.

NCQA now accepts telehealth codes for behavioral health and some physical health measures. See table below for measure details.

NOTE: CPT codes 90791-90792, 90832-90834, 90836-90838, 90845, 90847, 98960-98962, 99201-99205, 99212-99215, 99231-99233, 99241-99245, 99251-99255, 99307-99310, 99406-99409 and 99495-99496 may be used for reporting synchronous (real-time) telemedicine services when appended by modifier 95.
